

COMBUSTION GAS ANALYZERS

A new degree of efficiency

Combustion gas analyzers

A new degree of efficiency

Our combustion gas analyzers are ideal for maintaining combustion equipment, covering the full range of operations in residential, commercial and industrial applications.

Sauermann offers a range of compact and intuitive analyzers to enhance your performance.

Sauermann's combustion gas analyzers feature the latest digital and metrology technologies, making measurements more reliable and cutting the amount of time heating engineers need to spend on-site. A user experience like no other!

Applications

- Boilers
- Burners
- Water heaters
- Gas and diesel engines
- Furnaces
- Industrial kilns
- Industrial heating systems
- Incinerators

Residential

Commercial

Industrial

Features

Add a digital edge to your combustion analysis

**Auto pump cut-off
for high CO levels
(adjustable)**

**Predictive maintenance with
estimated sensor life
& calibration reminders**

**Draft & differential pressure
measurements**

**Mobile phone app for real-time
remote display & control**

**Calculations for
Combustion Efficiency,
Excess Air, & CO₂%**

**Data management with automatic
logging & report creation**

Si-CA 030

All the essentials for combustion gas analysis

The Si-CA 030 offers everything heating engineers need to inspect and maintain residential and commercial boilers, with wireless connection to our smartphone app and automatic generation of servicing reports and certificates.

Up to three gas sensors:
O₂, CO and NO (for NOx)

Auto pump cut-off
for high CO levels

- NOx capable with NO sensor
- Quick and easy pump On/Off control
- CO safety monitoring in ambient air

LIGHTWEIGHT
350 g

Common features Si-CA 030 / Si-CA 130

- Predictive maintenance with estimated sensor life & calibration reminders
- Draft & differential pressure measurements
- Calculated CO₂% value
- CO safety monitoring in ambient air

CO measurement up to
8,000 ppm

Color display

Si-CA 130

Comprehensive, versatile analyzer with touch-screen display

The Si-CA 130 features a touch-screen display and comes with PC-based management software (in addition to the smartphone app) for more in-depth combustion gas analysis. The three field-replaceable cells and sensors offer expanded measurement capability.

Up to three gas sensors O₂, CO, and NO or Low NO (for NO_x)

Field replaceable precalibrated sensors

- Auto pump cut-off for high CO levels (user-adjustable)
- NO_x capable with NO sensor (optional)
- One Touch Pump On/Off with Purge
- PC software with wireless and USB connectivity
- Graphical data display
- Customisable gas analysis screen

- Combustion efficiency and excess air calculations
- Protective rubber casing
- Maintenance agreements and extended warranties available
- Emissions values adjusted for reference O₂

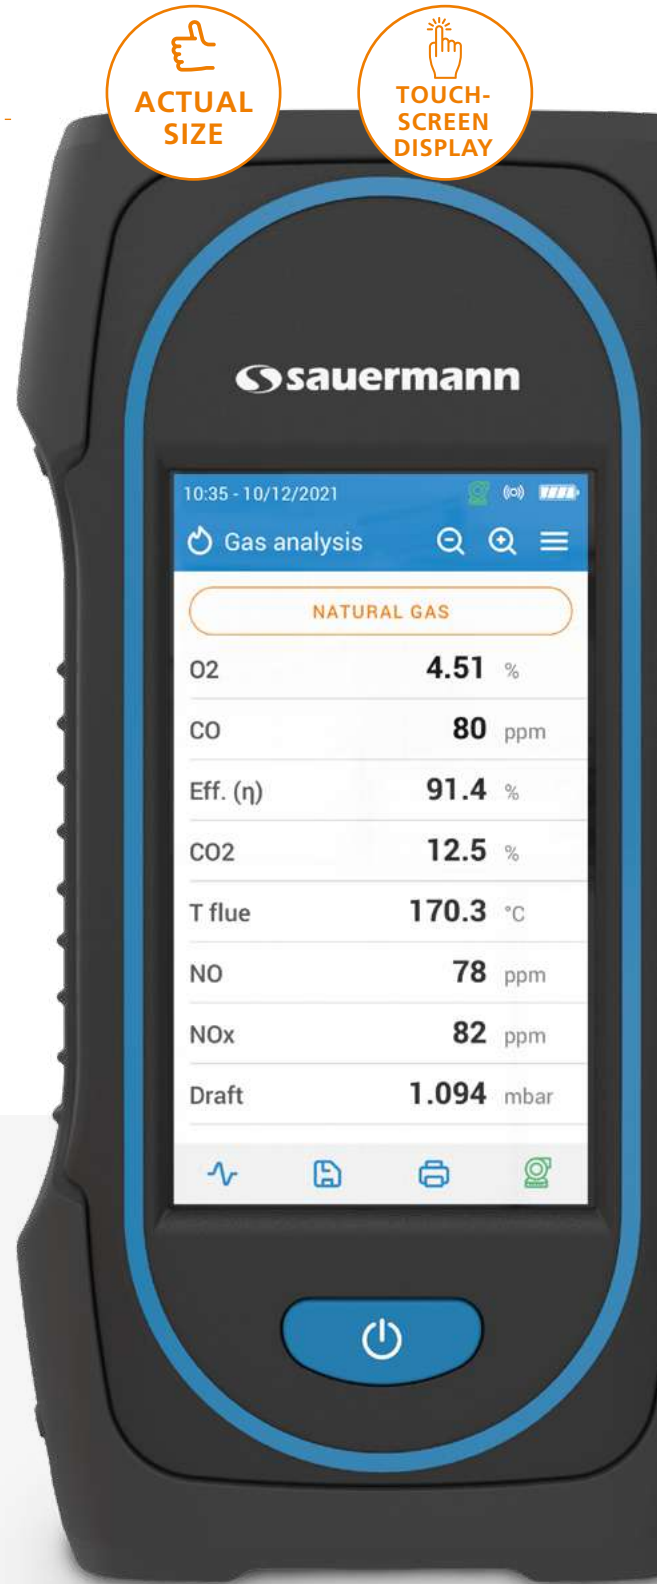

Data management with automatic logging & report creation through app/PC software

Lightweight, only 350 g (12 oz)

19.4 cm - 7.5"

Si-CA 230

State-of-the-art, industrial emissions analyzer

With up to six gas sensors and expanded measurement capabilities, the Si-CA 230 is well suited for boilers, burners, engines, and other industrial combustion applications. And with support for more gases and a high CO tolerance threshold, its versatility makes it the ideal choice across commercial and industrial applications.

Up to Six Gas Sensors. Can include
O₂, CO, NO, Low NO, NO₂, Low NO₂,
SO₂, Low SO₂, H₂S, and CxHy

CO Dilution auto-range
with measurements to
50,000 ppm

Total NOx & Low NOx
Capable

Field Replaceable
Pre-Calibrated Sensors

**TOUCH-
SCREEN
DISPLAY**

Features: Si-CA 230

- Ergonomic, light weight, & durable design
- Data management with automatic logging & report creation
- Predictive maintenance with estimated sensor life & calibration reminders
- One touch pump On/Off with purge
- PC software with wireless and USB connectivity
- Auto pump cut-off for high CO levels
- Graphical data display
- Customisable gas analysis screen
- Stack gas velocity with Pitot tube
- Draft and differential pressure measurements
- Emissions values adjusted for reference O₂
- CO safety monitoring in ambient air
- Protective rubber holster
- Maintenance contracts and extended warranties available

Mobile app

Sauermann Combustion

The Sauermann Combustion app lets you control your Si-CA analyzer remotely, view measurement results in real time, and customise them before exporting in the format of your choice.

- Free apps for iOS & Android mobile devices
- PC software with USB & wireless connectivity
- Fast, easy wireless connection
- Remote live view of combustion analysis data as list or graph
- Remote control to change settings
- Data saving, including automatic logging
- Report creation in PDF, CSV (for Excel) and XML formats
- Databases for customers, operators, & equipment

Download Sauermann Combustion app

Warranty

All devices come with a two-year warranty against manufacturing defects (subject to assessment by our after-sales department).

To find out more about our extended warranties and maintenance plans, please visit our website, or contact our Customer Service Department.

Combustion essentials

The extra tools you need

Gas leak detector

Si-CD3

The Si-CD3 gas leak detector is perfect for quickly and easily detecting even the slightest leaks of various combustible gases (methane, propane, isobutane, LPG and other hydrocarbons).

Adjustable alarm

**30 cm
flexible probe**

**LCD screen
with adjustable backlight**

**Battery life:
20 hours (4 x AAA batteries)**

Manometer

MP 115

This advanced portable manometer features two high-precision piezoresistive sensors, meaning it can be used to take standard and differential pressure measurements – all with a battery life of 180 hours.

Large LCD display

**Hold function
and min-max values**

CO meter

CO 50/110

The portable CO 50 and CO 110 instruments make it easy to measure CO concentrations in the ambient air, as well as temperature. The CO 110 model comes with a wire probe, two adjustable alarms and a large, backlit LCD display.

**Calibration
certificate**

Hold function

Accessories

Customize your own analyzer

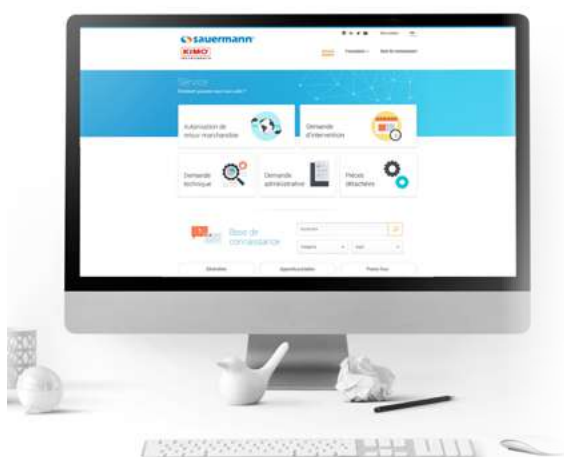

Our combustion gas analysers are available in many different configurations, with a wide range of accessories to choose from. Contact our Customer Services team for more information about our kits and accessories, and for guidance on choosing the right options for your needs.

After-sales services

Calibration and adjustments

Training

Our experts, based in 800 sq m of laboratory space, provide adjustment and calibration services for all types of measurement instrument:

- Pressure
- Temperature
- Humidity
- Air velocity
- Air flow
- Gas analysis
- Weighing
- Radiometry
- Tachometry
- Light measurement
- Electrical current
- Acoustics

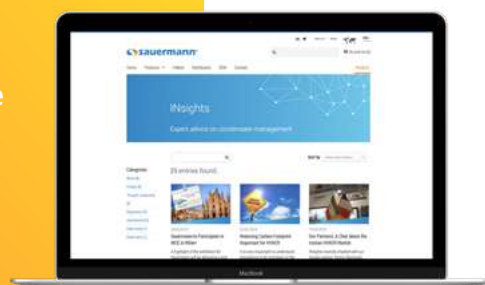

Manufacturer of innovative solutions
for the measurement and control
of indoor air quality.
